The International Conference on Sustainability, Technology and Education (STE 2013) aimed to address the main issues which occur by assessing the relationship between Sustainability, Education and Technology.

The International Conference on Sustainability, Technology and Education (STE 2013) received 58 submissions from more than 15 countries. Each submission was reviewed in a double-blind review process by an average of five independent reviewers to ensure quality and maintain high standards. Out of the papers submitted, 11 papers have been published as full papers, which mean that the acceptance rate was 19%. These submissions include full papers, short papers, reflection papers, poster/demonstration and doctoral consortia.

Extended versions of the best papers were selected to be published in:

- ❖ a special issue of WRSTSD - World Review of Science, Technology and Sustainable Development (ISSN online: 1741-2234), indexed by Scopus, among other indexes.

In addition to the presentation of full papers, short papers, reflection papers, poster/demonstration and doctoral consortia, the conference also included a keynote presentation given by Professor Narayanan Kannan, Faculty of Environmental Science, Universiti Putra Malaysia, Malaysia.

Keynote Presentation:

“A PLANET IN TROUBLE: APPLICATION OF GREEN TECHNOLOGIES IN ECO-PRESERVATION AND E-PRESERVATION OF ANCIENT DATABASES FOR A SUSTAINABLE FUTURE”

by Professor Narayanan Kannan, Faculty of Environmental Science, Universiti Putra Malaysia, Malaysia

The STE 2013 Conference proceedings was published both in hard copy (Book ISBN: 978-989-8704-00-9) and in soft copy (electronic version ISBN: 978-989-8704-01-6) by IADIS Press.
